Bedford County Public Schools is happy to announce the launch of a tremendous communication tool, PowerSchool's ParentPortal. PowerSchool is Bedford County's new student information system. Within our schools, PowerSchool is used to maintain student information, take attendance, store grades, produce transcripts, generate report cards, create and maintain schedules. PowerSchool "brings together teachers, students parents and administrators" in an easily used web-based data system. For parents and guardians, ParentPortal grants 24/7 access to up-to-the-minute grades and attendance. ParentPortal may be accessed through an Internet connection on any computer. This application uses a secure link that encrypts the data to and from the end use and is very secure.

Parents and Guardians will access PowerSchool through a unique username [login ID] and password. For families with more than one child in the school, a separate parent username and password will be provided for access to each child's information. To protect the confidentiality of your child's information, usernames and passwords will not be given over the phone, by mail or through email. Please bring a photo ID to the school's office when setting up your account.

Should you have any questions about this new opportunity for parents and guardians, Please feel free to contact Ms. Tinsley, School Registrar, at 540-297-7151 ext. 303 for assistance.

Sincerely,

Josh Cornett
Principal
